

attenti

When your solution works simply, your monitoring program does too.

Reliable hardware in a smart, cost-effective package. Attenti's Home Curfew RF Monitoring System (Base Unit 3000) gives you field-proven functionalities for low-risk participants.

Home Curfew Monitoring

Enabling communities to become safer and more secure.

Since 1994, Attenti has been trusted by government agencies and service providers worldwide by providing advanced technology, exceptional support, and industry expertise. Our field-proven solutions improve the security of communities by enhancing public safety, protecting agency budgets, and helping offenders rebuild their lives.

Key Features

Two-Way Voice Communication

The handset simplifies two-way communication between participants and agency staff. The Base Unit is capable of making outgoing calls to officers or the monitoring center and allows incoming calls from authorized users.

Multiple Connection Methods

Connects via cellular or landline providing redundancy if the primary connection is unavailable. Provides peace of mind knowing participant data is delivered.

Durable Bracelet

The bracelet is small, lightweight, and discrete; designed with no sharp edges. The waterproof, shock-resistant bracelet withstands the rigors of daily wear and performs to high standards for ruggedness and durability.

Patented Strap Design

Attenti has patented a light-focusing technology that maximizes our ability to detect strap tamperers. The strap contains an accurate fiber optic circuit; an internal copper wire aids in stretch resistance and durability.

Customizable System

A wide range of configurable options enables customization at the agency, officer, and participant level.

Supporting Software

Attenti's Electronic Monitoring Management Software, EM Manager, provides integrated monitoring, case management, reporting, inventory management, and range testing. The Mobile EM Manager app, available in the Apple and Android stores, allows users to perform essential RF monitoring functions while in the field.
